It's Elementary!: Big Questions About Chemistry

Synopsis

Elements make up everything around us – our computers, our games, and our food and drink. They make up trees and grass, cars and roads, and are the fundamental components of us, human beings. But what exactly are elements? What is their history? When were they discovered? It's Elementary! explores the chemistry of everyday things, from how blood needs iron to why helium balloons are lighter than air. Structure and headings based around easy-to-understand questions and statements, such as "What's a dog made from?" and "Inside an Atom" clearly organizes the material, while bold design and engaging stories work together to make learning about the elements surprising, fun, and understandable to kids. It's Elementary! looks at this weird and wonderful side of science, providing a unique and exciting biography of the elements and making chemistry fun for kids.

Book Information

Series: Big Questions

Paperback: 96 pages

Publisher: DK Children; Revised edition (January 19, 2016)

Language: English

ISBN-10: 1465440011

ISBN-13: 978-1465440013

Product Dimensions: 8.5 x 0.2 x 10.9 inches

Shipping Weight: 12.6 ounces (View shipping rates and policies)

Average Customer Review: Be the first to review this item

Best Sellers Rank: #724,971 in Books (See Top 100 in Books) #98 in Books > Children's Books > Education & Reference > Science Studies > Chemistry #8630 in Books > Children's Books > Science, Nature & How It Works

Age Range: 8 - 12 years

Grade Level: 3 - 7
