Naruto: The Seventh Hokage And The Scarlet Spring

Synopsis

Naruto was a young shinobi with an incorrigible knack for mischief. Then he channeled that energy into learning amazing ninja techniques and saving the world! Now Naruto has achieved his dream to become the greatest ninja in the village and his face sits atop the Hokage monument. But new troubles are bubbling up in the shinobi world... With the world now safe and the ninja villages working together, Naruto's work as Hokage seems pretty mundane. Giving his son, Boruto, enough attention is the toughest task he has. But then Sasuke uncovers a conspiracy that may involve surviving members of the Uchiha clan. And at the same time, Sarada begins to have doubts about the truth of her origins.

Customer Reviews

I just got this along with my Naruto Box Set 3! The story focuses a bit on the daughter of Sakura and Sasuke, Sarada and brings out a bit about her character as well as answers any question people have about her ever since the final chapter of Naruto. Also if you wanted to know about some of your favorite characters since the end of the series especially what happened with Orochimaru the book answers that as well. Basically, treat this as a epilogue of sorts to the main series. Not bad for a tie-in to the Boruto movie!

I actually enjoyed this. I wasn't expecting much going in since I wasn't a huge fan of the Boruto

movie, but it was much more interesting to focus on Sarada and Sasuke. I always wished the series put more focus on the female characters. Kishimoto does a really good job of creating really cool and interesting female characters, but he has a tendency to underutilize them, so I was especially happy to see both Sarada and Chocho on the cover. Chocho was more annoying than funny or helpful, which was a little disappointing, but Sarada made up for it. Overall, if you're a diehard Naruto fan, it's definitely worth reading. If you managed to finish all of Naruto, all 700 chapters, like I have, you should absolutely read this. Why not? You've already read 700 chapters! A couple more won't hurt.*Spoilers Ahead*I was dissatisfied with the conclusion since I felt it directly contradicted the message the entire thing was trying to send. Having a the huge dilemma of not knowing if her mother is really Sakura took a lot out of Sarada. At the end, it seemed like the moral of this story was "Sakura raised you; therefore, she's your 'real' mom, no matter what." To get the definitive answer of "Your birth mother is Sakura" actually drove home a different message. Since Sarada's birth mother was Sakura the whole time, it seemed to say that "blood is thicker than water" despite the fact that the rest of the manga was devoted to saying that "blood isn't thicker than water." I feel that it would have made more sense and have been more powerful if Karin was Sarada's birth mother. It would add so much to Sakura's character to say that she raised Sarada knowing that they weren't related by blood and loving her more than her birth mother ever could. Also, how did Sasuke survive long enough to reproduce? That kid was begging for a Darwin Award with the idiotic mistakes he was making for the majority of the series.

Sarada is one of the greatest characters (and women) that Kishimoto has written. This plot is a forced and dramatic, especially when compared to the actual series, but it was really enjoyable seeing Sarada, ChouChou, and Naruto in action, as well as the Sasuke/Sakura bond developed more. It's a great post-series story - highly recommend reading it before watching the Boruto movie.

Love naruto so this is an obvious pickup for me great side story good to see naruto and sasuke grown up still great friends the enemy was meh but its only a 10 chapter story also I love sarada character development

I really enjoyed reading this book . It was adjusted for the right age group and told a story that humans rather than solely manga fans can appreciate. I gave this five stars due to the completeness of the book.

Story focuses on Sasuke's daughter, but that certainly isn't a negative. Seeing Naruto struggle with his new responsibilities, Sasuke not brooding through the whole story, and Sakura's parental drama make this a great continuation for the fans of the series. The new characters are also very different and that makes them interesting. Looking forward to reading more about Boruto and Sarada, and all the new characters we will come to know.

Great continuation of the Naruto Saga. Self contained Story focuses on Sarada the daughter of Sasuke. Worth the read for any Naruto fan. Doesn't end on a cliff hanger but definitely leaves me wanting more!

Naruto taking care of not-his-kid and Uchiha family drama. If you want some Sasusaku and Sarada then this is a great read that will keep you entertained just as much as the other 72 volumes of Kishimoto's Naruto series. Interesting plot as far as the Uchihas and a gold mine of information. If you love the series, this is definitely a must-have for your collection.
