Customer Reviews

The Junior Genius Guides are a staple in our home. We have every one that's currently out and eagerly await new releases. They are well written, funny, memorable, and very educational! Jennings skillfully blends humor with high interest topics and cool facts which inspires children to read and try to commit the facts to memory. The dinosaur book gives children a timeline to put their existence in perspective with ours, pre-historic background information, cool dinosaur facts, and covers their place in the modern world (archeology, movies, pop culture). It's an excellent compendium and I recommend it for every child- even one not into dinosaurs. After this book, they

will be!

Wonderful reading for my ESL tutee who adores dinosaurs. He will be able to tell me all about all kinds of dinosaurs. Since he is quite verbal, he will surround me about all the info within the book. He adores books written by Ken Jennings. Diego is truly a junior genius.
