I have the original fucksicles book and when I saw there was a black background version I had to have it! So bad I got 2 copies! So different from other sweary coloring books with the Popsicle letters, the black backgrounds allow for some bright neon colors to be used! Sharpies and gel pens work great! You can use anything really and it'll pop! I just like the neons because the picture looks awesome under black light! Highly recommend!!

I pretty much love all of my coloring books that come out with "midnight" editions, and this was no exception. The paper is great, the drawings are adorable and swearsy, and they are all popsicles! SO much fun! I used my Martha Stewart Crafts Glitter Markers Set, Warm Spectrum on the picture that has been partially colored.

I can't remember the last time I colored anything, but a friend recommended this coloring book to me so I figured, why not? I ordered a big set of colored pencils and just went at it! The photo that I included is of the first page that I started working on. Just that one word took me about an hour. This coloring book is definitely going to keep me busy for a while. I just got a really cool set of gel pens and I can't wait to try them out on the next page after I finish this one with my colored pencils. The pages of this coloring book have a nice thickness next to them and I chose this as my first coloring book because I really like the black background on all of the pages. Oh, and they're not double-sided either, so you don't have to worry about bleeding through if you use markers. The only thing I didn't like is that the pages are not perforated so it makes tearing them out slightly difficult. My husband suggested that I use a box cutter or something and try to slice down the middle of the spine of the book, then try to loosen the pages that way. That might work, hopefully. Otherwise, my husband's in big trouble. (I'm kidding. Or am I?)

Love, love, love this book! John is a great artist and this is no exception. The black paper makes your colors pop, especially when you use neon or glitter markers or gel pens. If you really want to color your stress away, get this book.

Not as enthused with the designs as I originally thought. It's a very well made book as far as materials though. If you're looking for a prank gift or dirty Santa gift, this hits the mark. It's reasonably priced so you won't be out much.

At first, I wasn't entirely sure if this style of John's was going to be for me, but when the Summer Nights Edition came out, I figured I'd give it a shot. A few of the designs seem to be missing the black in places, probably just overlooked but it's not a big deal, I just fill them in with black pen or marker to keep the consistency. I actually used gel pens on one of the pages, which I don't usually do for an entire page because it tends to take up a lot of ink. It did, but it also felt like it didn't take as much as I thought it would, but maybe that's because I used a variety of colors on it. Nonetheless, I do really enjoy this book.

So, I already own the regular version of this book, but as soon as I saw this one, I had to have it too... The days I waited for it to be available seemed like weeks, and even my prime shipping was making me wait too long. The wait was, however worth it, the raunchy cute just drips from every page, crying out for some attention from my neon markers. Since the designs are one-sided, I don't have to worry about ruining the backsides of the pages. This is an all around great coloring book, and not just on the days that make you feel like cussing up a storm.

Fun, fun, fun! Grab your neon markers, pencils, or paints and get to colorin'! The designs and black backgrounds were made for neons! The designs are only printed on one side of the page, but I would recommend ALWAYS using a piece of card stock between pages to prevent marker bleed-thru. Enjoy!
