## Customer Reviews

An excellent one-stop-shop for answering challenges to Christianity.  
**PROS:**- Responds to a broad range of challenges to Christianity.- Answers are a good balance between short and in-depth.  
**CONS:**- Too challenging to just hand to (young) children without help, requires parental involvement (NOT REALLY A CON, IMO)."Keeping Your Kids on God's Side" provides concise answers to just about every challenge to Christianity you can think of. Hasn't science basically disproved God at this point? How could a supposedly good God judge people who've never heard about Jesus? Isn't the Bible full of errors and contradictions? Natasha Crain has you covered with a thoughtful response.The brilliance of this book is that she gives concise answers without being

\*too\* concise. Maybe you don't have time (or interest!) to read a whole book on the origin of life, or how we got the books of the Bible, or why God allows evil. Well, now you can read a complete answer in 10 minutes. But these are absolutely not "easy" answers. Some of these questions must be teased apart, or require background information before they can be adequately answered. Natasha Crain has found a great balance between being brief and being thorough. Want to know a secret? This book will be as much of a boon to your faith as it will be to your kids. It's not like children are the only ones to ask these questions. In fact, it's not really a book for children at all. This is not a book you just hand to your kids and say, "Read this for answers." Parents will need to read and digest the material in this book and then engage their kids in deep discussion. Which is yet another awesome thing about this book!

As an apologist, I can think of no greater need today than for parents to learn to defend their faith. Today, parents are on the front lines as defenders and need to learn this because of the world in which their kids are growing up. Several years ago I began to structure my messages toward this group alerting them toward this vital need. Now, Natasha Crain of ChristianMomThoughts.com has provided a book that does the job. (If you are unfamiliar with Natasha Crain's blog you should become familiar with it now. Ms. Crain has repeatedly hit the home runs • addressing issues that significantly affect the church.) Recently, I had the opportunity to read an advanced copy of Keeping Your Kids on God's Side: 40 Conversations to Help Them Build a Lasting Faith, by Natasha Crain. I should mention that I have no pony in this race. I'm not an employee of the publishing company, nor am I going to gain anything from this review. Natasha Crain provides a useful resource for parents they will use for many years. Although Ms. Crain does not hold a degree in apologetics, philosophy, or theology, she demonstrates what someone can do if they want to research a subject. For Ms. Crain, this became a quest when her blog came under attack by atheists who challenged the beliefs she had learned and practiced for most of her life. Did Jesus ever really exist? • Can you prove God exists? • Is the Bible reliable to demonstrate its claims? • These and more questions drove Ms. Crain to read, study, then read and study more. Her book reveals she has mastered the subject matter and she gets high grades for not only learning, but also for communicating. This book is a terrific introduction worthy to be read and studied by anyone who wants an introduction to defending the faith.
