Gego: Autobiography Of A Line

Synopsis

In the intricate wire sculptures of the German-born Venezuelan artist Gego (1912â "94), lines are given new dimension, describing architectural space and engaging with the human body. Gego: Autobiography of a Line gathers key works from the artistâ "s oeuvre, from her famed entropic sculpture of the â "70s to the works on paper created at the end of her long career. This fully illustrated publication is among the first to position Gegoâ "s work in a global context, and features texts by curator Chus MartÃ- nez, head of the Institute of Art of the FHNW Academy of Arts and Design in Basel, Switzerland; art historian Kaira CabaÃ- as; and Gegoâ "s grandson, Daniel Crespin; as well as previously unpublished archival material. The book also includes â œGEGO,â • a new poem by poet, artist and composer Anne Tardos, performing a linguistic intervention in Gegoâ "s work.
