Lost Ocean 2017 Wall Calendar: An Inky Adventure And 2017 Coloring Calendar

Synopsis

Johanna Basford's amazing 2013 bestseller Secret Garden fueled the adult coloring craze, selling an unprecedented number of copies. It was born out of the self-described "ink evangelist's" passion for the hand-drawn line and its inherent sense of energy, which is impossible to duplicate via computer-generated graphics. Her initial bestseller was quickly followed by two more as her fan base and the coloring phenomenon grew. Along the way she's lent her art to such corporate clients as Starbucks, Absolut Vodka, and Chipotle. No matter where it's encountered, her art evokes fancy in the viewer, inviting closer inspection of its hidden intricacies. Waves of calm will greet users of this spiral-bound calendar each month as a different image from Johanna Basford's best-selling Lost Ocean offers them the chance to creatively color or just lose themselves in the amazing art.

Customer Reviews

Looks quite good, since the intricate images are a little magnified, I think it will be easier to color. I haven't tried to color it yet, but mostly I'll be using color pencils. I saw other reviews about bleeding through on use of markers, so not sure if I'll be using markers on these.

I was worried about bleed-through, since the pictures and pages oppose each other on each page. I am using markers, sometimes with overcoloring. Two different types of gel pens, some laying down thickly, as with metallics, work well, as do neons. I'm impressed with the quality of the paper. Many, if not all, of the pictures are from the "Lost Ocean" coloring book, and they're beautiful.

Do not color before you use this calendar it seems like thick paper and you'd figure they'd use the paper that will not bleed through but it did and all I used was Crayola marker. Its beautiful tho none the less

I did this one because I have the book. so when I color the pictures I don't have to care if the marker goes thorough the page because only thing on the opposite side is the calender unlike the book. Which I will not buy until they publish one drawing on one side and blank on the other plus perforate pages would be nice too. Otherwise I do like coloring the details because my sharpies go thorough the paper.

As usual I'm in love with yet another Johanna Basford product. I love the enlarged images from Lost Ocean. The only disappointments are the paper being so thin and the calendar doesn't have the skull image.

It is beautiful! Love the detail work.

Awesome loved it as a gift

It arrived faster than I expected and the pictures are all very neat and creative.
