Customer Reviews

Our family took a long road trip, and this book kept my 6-year-old independent reader VERY busy in the car. Between a few movies on the iPad and his new chapter book about sharks (a favorite topic), this kid was occupied! Well-written, great photographs, and you can't beat the price. This is a must-have for elementary school readers!

Great for kids to learn and the pictures look great

Grandson loves it.
