Customer Reviews

If you cant read music you will not like this book. It does include tabs but if you are a beginner you will probably notunderstand the flow of the songs published. The songs are great songs but if you are looking for just tabs go onlineand get them for free.

Nice variety pretty decent tabs. Good book to start learning a repertoire on bass. I guess only 4 stars cause I only like a small number of the songs and its not a favorite.

This book has a bunch of fun, easy to play songs.

Not exactly what I was expecting. Only 2 or 3 songs that are any good.
