Customer Reviews

If you're a Steve McDonald fan, you already own Fantastic Cities: A Coloring Book of Amazing Places Real and Imagined and you have a pretty good idea what's in this calendar. The drawings are the same size and on the same paper as the coloring books so you don't have to worry about this calendar being slick coated paper -- with the bonus that the back of the drawing page is the date-grid of the calendar page, so you don't have to worry about bleed-through mussing up the opposite drawing. (Of course your date-grid may be a little funky but if you are into FANTASTIC CITIES you will probably be able to live with it.)AND there are three new exclusive images in this calendar to boot. There are twelve drawings plus a bonus page of 4 months of 2016. So you have no excuse for not getting the calendar right now [in July 2016] because in a couple of months you'll be able to track your Autumn 2016 on it. If you haven't run into Steve McDonald before, these are his architectural drawings for coloring. They are just the right scale that you can take any number of directions with them - color them as cityscapes, add tons of detail, create sunrise, sunset, or night scenes, or take them into an abstract color field avenue. If you're getting this for someone else as a gift, this sort of openness with the coloring makes it accessible for almost anyone.
